NUMBERS & ODDITIES <http://www.ary.luna.nl>
<http://www.numbersoddities.nl/index.htm>

SPY NUMBERS ONLINE DATABASE <http://www.spynumbers.com/numbersDB/>

Welcome to N&O 141. Besides the usual items you will find another edition of "Intelligence Profile". Further of course a short item about the Cuban spies who were captured recently (see voice section).

Note:

I received 2 emails with questions about the designators as used in N&O. Enigma 2000 has withdrawn a number of designators. Some of them are frequently reported. N&O will list these logs when reported and because many people are still using the designators we will mention them as well, at least for the time being. Withdrawn designators include amongst others M21, M22, M31, M32, M41 and M42.

★ VOICE STATIONS ★

Not much to report. The well known bunch of stations were on the air throughout the month. Mike supplied the E07 transcripts.

::: V02

The news about a Cuban spy case reached us via various channels on 5 June. 72 Years old Walter Kendall Myers, a former US State official and his wife, Gwendolyn Myers (71), have been arrested for spying for the Cuban government for nearly 30 years.

Myers used his top secret security clearance to pass on classified information to the Cuban government. His wife worked at a bank. The Meyers received their instructions via shortwave radio and passed their responses to handlers in person.

Brooke Clarke found a document on the internet and passed the info to us.
See <http://cryptome.org/myers/myers-spy-docs.zip>
In "WMyers.pdf" he found info that the contents of the HF numbers messages were known to the FBI. They also knew the message headers for Myers, his wife and their handler.

Gwendolyn Myers was "123" and Kendall Myers was "202".
Their Handler was agent E-634

- Department of National Defence and Canadian Forces Intelligence Branch
- Joint Task Force 2 (JTF2)
- Department of the Solicitor General
- Criminal Intelligence Service Canada (CSIC)

-0-0-0-0-0-0-0-0-0-0-

- DEPARTMENT OF THE SOLICITOR GENERAL

The Department of the Solicitor General is a body within the Ministry of the Solicitor General which consists of the department and four other agencies: the RCMP, the CSIS, the Correctional Service of Canada (CSC), and the National Parole Board (NPB). The Department assists the minister by giving direction to policing, law enforcement, and national security. The ministry is responsible for the protection of Canadians.

-0-0-0-0-0-0-0-0-0-0-

- CANADIAN SPACE AGENCY (CSA)

CSA has radar imagery capacity and a remote sensing system from it's RADARSATS.

-0-0-0-0-0-0-0-0-0-0-

- SECURITY INTELLIGENCE REVIEW COMMITTEE (SIRC)

The Security Intelligence Review Committee (SIRC) was established in 1984 as an independent, external review body which reports to the Parliament of Canada on the performance of the Canadian Security Intelligence Service (CSIS).

-0-0-0-0-0-0-0-0-0-0-

- CANADIAN SECURITY INTELLIGENCE SERVICE (CSIS)

The Canadian Parliament has given CSIS extraordinary powers to intrude on the privacy of individuals. SIRC ensures that these powers are used legally and appropriately, in order to protect Canadians' rights and freedoms. To do this, SIRC examines past operations of the Service and investigates complaints. Note that SIRC examines CSIS's performance on a retrospective basis, so it is not providing oversight of current CSIS activities.

The Deputy Director Operations, who reports to CSIS's Director, is responsible for three groups:

- 1) Intelligence, consisting of five branches (Security Screening, Intelligence Assessments, Human Sources and Operations Support, Scientific and Technical Services, and the Integrated Threat Assessment Centre);
- 2) Operations, consisting of three branches and one region (International Terrorism, Middle East and Africa, Asia, Europe and Americas, and International Region); and
- 3) Six regions (Atlantic, Quebec, Ottawa, Toronto, Prairie, British Columbia).

Intelligence branches:

The SECURITY SCREENING BRANCH has two program streams: government screening and immigration screening.

The INTELLIGENCE ASSESSMENTS BRANCH consolidates the key analytical function of the Service and centralizes its main intelligence reporting mechanisms. It develops strategic and operational analyses of current threats and emerging issues, and produces Intelligence Assessments, Threat and Risk Assessments and Perspectives.

The HUMAN SOURCES AND OPERATIONS SUPPORT BRANCH provides a range of support and coordination services including risk management and analytical expertise for operational activities across the Service. It is the policy centre in a number of areas including operational security, multilingual services and management of human sources. It also contains the Threat Management Centre, which provides 24/7 support to operational staff at headquarters and regional and Foreign Offices, and it provides support to the Service's involvement in major special events such as the upcoming 2010 Olympic Games in Vancouver.

The SCIENTIFIC AND TECHNICAL SERVICES BRANCH develops and deploys technical tools and mechanisms to support the operations and investigations of CSIS's other branches.

The INTEGRATED THREAT ASSESSMENT CENTRE (ITAC) produces assessments that warn the government about terrorist threats to Canada and to Canadian interests abroad. Once completed, ITAC's threat assessments are distributed to domestic and foreign partners. Additionally, ITAC acts as a distribution hub for threat assessments produced by counterparts in the United States, the United Kingdom, Australia and New Zealand.

Operations branches:

- MIDDLE EAST AND AFRICA BRANCH
This branch concentrates its investigative effort on threats that emanate from, or have as their major focus in, countries in the Middle East and Africa. This includes issues of terrorism, foreign-influenced activities, the proliferation of weapons of mass destruction and espionage.
- ASIA, EUROPE AND AMERICAS BRANCH
This branch investigates threats emanating from its vast area of geographic responsibility, namely espionage, terrorism (including domestic extremism) transnational criminal activity and foreign-influenced activities.
- INTERNATIONAL TERRORISM BRANCH
This branch conducts investigations globally and within Canada, focusing on Islamist extremists engaged in a variety of terrorist-related activities that pose a direct threat to Canadians and Canadian interests. Notable among this branch's areas of interest is the radicalization of Islamists within Canada.

It focuses exclusively on al Qaida and al Qaida-inspired groups regardless of geographic boundaries.

- INTERNATIONAL REGION

This branch manages amongst others the Service's liaison with foreign agencies and coordinates visits to CSIS headquarters and CSIS regional offices by foreign representatives.

-0-0-0-0-0-0-0-0-0-0-

- ROYAL CANADIAN MOUNTED POLICE (RCMP)

The RCMP were originally known as the North-West Mounted Police (NWMP). Formed in 1873 and charged with the task of bringing law and order to the Northwest Territories which officially became part of Canada in 1870. After World War I the NWMP merged with the Dominion Police, which had patrolled eastern Canada, and they gave the national force a new name, the Royal Canadian Mounted Police, in recognition of its expanded national role.

The RCMP is Canada's federal police service, providing law enforcement services in detachments across the country. The Drug Enforcement Program is only one of a number of other federal policing duties carried out by the RCMP. The National Central Bureau (Interpol Canada) is also located at RCMP HQ. It forwards all enquiries received from Canadian law enforcement agencies to the relevant foreign Interpol branches.

The Force is divided into 13 divisions. Each division is managed by a Commanding Officer. Divisions roughly approximate provincial boundaries with their HQ located in respective provincial or territorial capitals (except Ottawa, Montreal and Vancouver). Divisions have 52 sub-divisions. Air and Marine Services supply support to the divisions. The RCMP "Depot" Division training center is located in Regina, Saskatchewan, and the Canadian Police College is located in Ottawa, Ontario.

Note:

According to radio enthusiasts the RCMP have used HF radio for its communications in the past. As far as I know they do not utilize this kind of communications anymore. Dxers reported RCMP traffic on the following frequencies: 2788, 4765, 4776.5, 4785, 4798.5, 4812.5, 5445, 6792, 7780, 9200, 10390, 14620, 14817.5, 19130, 21785, 21807.5, 24110 kHz. Modes: encrypted RTTY and USB (voice)

-0-0-0-0-0-0-0-0-0-0-

- DEPARTMENT OF NATIONAL DEFENSE

The Department of National Defence and the Canadian Forces have a unique, unified management and command system. The 1971 report of the Review Group resulted in the merging of the Department, Canadian Forces Headquarters and the Defence Research Board into a single entity, the National Defence HQ.

The Director General Intelligence (J2/DG Int) is responsible for the production and dissemination of Defence Intelligence required by the Department and other government departments. This division operates the National Defence Intelligence Centre (NDIC) which monitors global events on a 24/7 basis and provides Canada's only all-source indications and warning centre. The NDIC is located adjacent to the Operations Centre in NDHQ. J2/DG Int also directs the geographic support programme which provides the Canadian Forces and the Department of National Defence with maps and charts and geodetic products and services.

Joint Task Force 2 (JTF2) was created in 1993 as Canada's elite commando unit. It is responsible for anti-terrorist operations.

-0-0-0-0-0-0-0-0-0-0-

- COMMUNICATIONS SECURITY ESTABLISHMENT (CSE)

The CSE, an agency of the Department of National Defence, is one of the main organizations that provide the government with foreign intelligence. It's SIGINT department analyzes and reports on intercepted foreign radio, radar and other electronic emissions and provides the government with this foreign intelligence. The CSE is also responsible for the security of federal telecommunications and electronic data processing. This area is commonly referred to as INFOSEC. The head of the CSE reports to the Minister of Defence and the PCO.

The Canadian Forces Supplementary Radio System (CFSRS) supports CSE primarily in its signals intelligence collection and analysis roles. In addition, CSE has access to allied SIGINT through reciprocal sharing agreements.

Canada is a member of the secret "UKUSA Community" SIGINT alliance that traces its origins to the World War II. The member agencies are the CSE, the National Security Agency (USA), the Government Communications Headquarters (UK), the Defence Signals Directorate (Australia), and the Government Communications Security Bureau (New Zealand). SIGINT agencies from other countries share their information on a more or less limited bases. In addition to the UKUSA community agreements, Canada has bilateral SIGINT agreements with the United Kingdom and the United States (CANUSA agreement).

The Commissioner of CSE was created as an independent government office in 1996 to review the activities of the CSE.

-0-0-0-0-0-0-0-0-0-0-

- CRIMINAL INTELLIGENCE SERVICE CANADA (CISC)

The CISC is an organization that provides the facilities to unite the criminal intelligence units of Canadian law enforcement agencies. CISC has its HQ in Ottawa and has nine Provincial Bureaux.

CISC member agencies fall into three categories.

The agency has full police officer authority provided under a Canadian federal or provincial police act. The primary role of the agency is law enforcement and the agency contributes to the criminal intelligence process.

The agency has specific but limited law enforcement responsibilities. Its authority is provided under specific federal or provincial legislation, for example Customs Act, Immigration Act, Provincial Wildlife Act.

Category III - Agency with Role Complementary to Law Enforcement
The agency has no direct law enforcement authority but provides assistance to law enforcement agencies.
